

# Hollow Man

## Iced Earth

Emptiness, consuming me  
Head in hands, I can hardly speak  
Looking for solitude  
Lost in humanity True knowledge leads to suffering  
A constant quest, an endless dream  
Searching for inner peace  
Hidden so deep in me Don't wanna be a hollow man  
Ain't gonna be the hollow man Sadness comes knocking constantly  
Filling up my eyes for all to see  
Peace will come someday  
I pray that it finds a way Darkness caressing my mind and soul  
My spirits rejecting, I'm feeling whole  
Emptiness goes away  
Fills with the light of day Don't wanna be a hollow man  
Ain't gonna be the hollow man I rise up like the Phoenix  
From the ashes of an older way  
With wisdom gained, I turn away, I turn away  
Hollow man find yourself some other prey Don't wanna be a hollow man  
Ain't gonna be the hollow man
