

Aqua

Chase Johanson

I walk on down to the river, blood runnin' on in my veins
I try my best to remember, when we weren't stuck in our ways
I keep all calm just to hear it (I keep all calm), it carves out rocks in its way
The water runs like a spirit, the spirit of us one day
We're made of water, so drink it down
Worries won't matter when you're in the ground
Your time comes closer the heart grows colder
Grow and be bolder get lost inside the sound
I feel a rush when it hits me, and no one knows what its from
It fills me up and replaces, the demons I call when I strum
It's been so long but I feel it (its been so long), like the blood it flows so strong
And all again like the demons, I know what I'll become
We're made of water, so drink it down
Worries won't matter when you're in the ground
Your time comes closer the heart grows colder
Grow and be bolder get lost inside the sound
haaaaaaaaaaaaa
We're made of water, so drink it down
Worries won't matter when you're in the ground
Your time comes closer the heart grows colder
Grow and be bolder get lost inside the sound
