

Got Me Goin

Paperwhite

I am frozen on emotion
Undecided where I'm going
Everybody's talking
Everyone but you I'm still waiting out for this
Standing steady still
But he's watching
Everyone but you Tell me, is it something you do
That pushes the emotion towards you?
You got me going And I am coming for amnesia
Never thought that I could leave it
Everybody slowing
Everyone one but you I will face it, the hurting
Never thought that I could find it
Everybody knows it
Everyone one but you Tell me, is it something you do
That pushes the emotion towards you? You got me going
You got me going
You got me going
Now I felt it in the air
You are quick to keep me there
You got me holding you so close
Are we the only ones to go, to go, to go? You got me going
You got me going
You got me going
