Somewhere

Default

I've seen your face somewhere before I swear
Could it be I've met you somewhere else
It's the way you turn and look at me
Your eyes are different but they're much the sameHave I seen you before
Have I seen you beforeHeaven told me they took him somewhere
Have I seen you before
Heaven told me they took you somewhere
Have I seen you beforeI was with him when he left us
I feel he really never left at all
When I'm looking in this mirror
I see you in me and I feel so proudHave I seen you before
Have I seen you beforeHeaven told me they took him somewhere
Have I seen you before
Heaven told me they took you somewhere
Have I seen you beforeHeaven told me they took you somewhere
Have I seen you before, no
Heaven told me they took you somewhere
Have I seen you beforeHeaven told me they took you somewhere
Have I seen you before, no
Heaven told me they took you somewhere
Have I seen you before
