On My Balcony

Flunk

Here comes summer
Beaming in through my bedroom window
There's a song on the radio
You used to hum back thenHere comes summer
Still feels fresh as morning air
Today I'll just stay here
And do, well, whateverI'll do whatever
Please, make summer last foreverAll I wanna do
Is sit here on my balcony
And think about you and me
And how happy we could beAll I wanna do
Is sit here on my balcony
And think about you and me
And how happy we could beHere comes summer
Picking flowers in the early hours
Without a care in the world
Except perhaps for bees and birdsHere comes summer
I guess I'll stick to my master plan
Stay away from sea and sand
And do, well, whateverI'll do whatever
Please, make summer last foreverAll I wanna do
Is sit here on my balcony
And think about you and me
And how happy we could beAll I wanna do
Is sit here on my balcony
And think about you and me
And how happy we could beAll I wanna do
Think about you
All I wanna do
Think about you..
