

Heart of a Warrior (feat. Teddy Sky)

Dizzee Rascal

I will fight till I take my last breath
I got the heart of a warrior
The heart of a warrior
I've been down, I've been out and I bled
I got the heart of a warrior
The heart of a warrior
I'll never back downBorn fearless, leavin when it's delirious
Superstar and super serious
Runnin the game like I was born gearless
Deeper guy, I got the beat to live em earless
Still I know that they still hear us
Only rap, we make an appearance
So I shout, shout, let it out
Remain tear less 'cause I'm careless
Doing it for the man dem in the hoodies and the new eras
Young ragamuffin, can't tell me nothing
Miss me with that huff and puffing
You ain't ready to buck and get stuck in
You're just doing a lot of chuckin
I'm just doing a lot of talkin'
Are you sick or something?
Are you thick or something?
You should think of ducking
Hit you with that nunchukka
I Bruce Lee your fly kick
Jump up and Tom pop and I've got something
Nigga they comin hard for they food
Don't wanna see me switch and lose my cool
'Cause I be up with that fool, hard but you have to smooth, I be actin a fool
I be actin a fool
I be actin a fool
I be actin a fool
I be actin a foolI will fight till I take my last breath
I got the heart of a warrior
The heart of a warrior
I've been down, I've been out and I bled
I got the heart of a warrior
The heart of a warrior
I'll never back downWhen the bumper clean shake the earth right underneath

Kickin' out the devil, size eleven call me thunder feet
If you want a war I'm not the one to meet, I'm not the one to sweet
I'm like a tropic in the summer, come with heat
Not to blow my own brass but I'm having a blast
Gettin' my paper fast
Think I'm givin' a rass, you're havin' a laugh
Competition's lookin' over bars
And I'm the last nasty bretheren reppin' the underclass
Miss me with your problems 'cause I can't be asked
Call Jeremy Kyle, I'm wicked and wild
Your style was kinda mine
You like to profile, you just a child that's in denial
Now you're on trial, you should run the mile
Meanwhile I'm flexing crocodile with nothing but a swagger and a crooked smile
Pimp tie could never get rinsed out 'cause I stay freshed out
No doubt, don't save no hoes
I'm giving her proper, keep her bitched out
And failure I don't think about
Black tie, I'm suited out
It's amazing what you can achieve when you pull your finger out I will fight till I take my last breath
I got the heart of a warrior
The heart of a warrior
I've been down, I've been out and I bled
I got the heart of a warrior
The heart of a warrior
I'll never back down Now now I was way through the fire
Yea yea I got the eye of the tiger
So tell me, what's gonna stop me now
God knows that I put in the hours
I can't lose now, I got the power
We at the top blowin smoke in the sky
But I'mma take it just a little bit higher I will fight till I take my last breath
I got the heart of a warrior
The heart of a warrior
I've been down, I've been out and I bled
I got the heart of a warrior
The heart of a warrior
I'll never back down
