Stuck

Ned's Atomic Dustbin

Have a good time without me
I'm the center of your very being
Have a good time without me
I'm the center of your very beingIf stuck is what you say
Well, that is what you've made
Stuck is what you say
Well, that is what you've madeEnough to make your day
Is it too much or is it too safe?
Enough is what you say then
Stuck is what you've madeTake it back, you astound me
Don't recall us ever being without this
Take it back, you astound me
Don't recall us ever being without this
