Focus

Nique

did they punish you
did they say they would live without you
did it tear you up inside
did they free the ones you love
did they rise above
did you feel a certain something inside
well I'm with ya now
and I'm glad that you are here now
and I wish that I could tell them what it's like
well I'm with ya now
and I'm glad that you are here now
and after all these years
you know you were right

and I can't
focus- so well
help me through it
this time I am in hell
did we learn anything
when we were in school
do you remember
when nothing was nothing
do you remember those days
do you remember what it's like to like the outside
do you remember those days
well I can't
