The Birth Of Tragedy

Antagonist A.D.

He will be there the unhallowed redeemer
The great accuser - the man of the future
Embraced by bitterness and cold compassion
The burning wonder tears heaven apartThere is no salvation
The end is failing no need to remain
This stained procession of religious failure
Is the birth of tragedyIf there's no future
No bright tomorrow
The end is failing
No need to remain
Love was just another reason for hatred
The end is coming -
The world opens wideThere is no salvation
The end is failing no need to remain
This stained procession of religious failure
Is the birth of tragedyThere is no tomorrow
Just end it all today
There is no salvation
No need to remain
Alien Erotica
Colliding black sunsI can't justify your need for worship
Decadence is just a human virtue
There is no need to fight the future
Eternity is just a death away
The world will end in fire
The world will end in fire
The world will end in fire
The world will end in fireThere is no salvation
The end is failing no need to remain
This stained procession of religious failure
Is the birth of tragedyThere is no salvation
There is no salvation
