## Ribsy's Nickel

Living the life till the parties over 2X

In the life we share, livin out loud and that's quite a story  
Some choices feared,  
Standing still has done nothing for me  
In the past we've stayed,  
Livin it up and that's quite a story  
A little to deep,  
These feelings are here and that's everything for me

Living the life till the parties over 4X

Looking for our name  
The faces we meet and they all got a story  
The lazy days  
Looking for someone to listen for me  
In the past we've stayed living it up and that's quite a story  
We live in movies  
We're doing it well and that's everything to me

Living the life till the parties over 4X

I forget, how I'm suppose to feel,  
Cause I'm convinced  
This can seem like a livin dream  
When I'm free like this, When I know I exist, Will I feel like this, again

### GUITAR SOLO

I forget how I'm suppose to feel  
Cause I'm convinced  
This can seem like a livin dream  
When I'm free like this, when I know I exist, Will I feel like this, again

Were living the life till the parties over 4X

The parties over here 4X  
When I'm free like this, When I know I exist, Will I feel like this, again
