

You've Got It

Bratz

You've got it
Something like no one else, you can tell
That you've got it
The way that your smile go, the way that you shineGot the look, attitude, yes and you've got the style
It shows
The way you talk, what you do and the way that you smile
You should knowYou've got it
Something like no one else, you can tell
That you've got it
The way that you sparkle, the way that you shineWho you are? You're a star 'cause you're one of a kind
It's true
How you make it look easy every time
Over youExpress yourself this way now
The way you know you should
You always seem to know how
To make it look so goodYou've got it
You know you've got it
You've got itDo what you do like you do how you do
'Cause you got it going on and you know it's true
Check yourself, you're like no one else
'Cause you got your own style and you wear it wellOne to the two to the three you're a star
Everywhere you go, you could stand apart
It's in the way you dress, I was looking the best
It's showing who you really areExpress yourself this way now
The way you know you should
You always seem to know how
To make it look so goodYou've got it
Something like no one else, you can tell
That you've got it
The way that you sparkle, the way that you shineYou've got it
You're individual, you can tell
That you've got it
And you make it look so good, so right
