Alibi

The Strange Familiar

The lights are going down
In every city town
But youâ€™ll be fast asleep
Thereâ€™s no one that can keep
The dream out of your heart
And when you fall apart
Just hold your head up high
You have an alibi in me

Canâ€™t compromise me for you
That kind of trade would never do
Wearing shoes that donâ€™t quite fit
You lose yourself bit by bit
Completely alone now, blank page beginning
Empty head the world is spinning
Control the strings, dancing puppet on a stage
A cage

The lights are going down
In every city town
But youâ€™ll be fast asleep
Thereâ€™s no one that can keep
The dream out of your heart
And when you fall apart
Just hold your head up high
You have an alibi in me

Late in the afternoon
The winterâ€™s cold will soon
Rewrite the summerâ€™s lies
With frozen alibis

The lights are going down
In every city town
But youâ€™ll be fast asleep
Thereâ€™s no one that can keep
The love out of your heart
And when you fall apart
Just hold your head up high
You have an alibi in me
