Irrelevant Thoughts

Prong

Look, listen, learnListen
All I've been taught
All that confused me
Irrelevant thoughts
All just to use meFor society's will
Denied my own person
But there's still a will
For my very own lessonNow I know nothing
That my mind can't create
Now they'll know something
Of the mind they createLook, listen, learn
It's time they learn
[Incomprehensible]Rite to my will
Rite to my impulse
Territorial rites
Right to your downfallLook, listen
Look, listen, learn
[Incomprehensible]
