

Never Never Land

[Raheem DeVaughn](#)

Love king (Love king)
Love king forever I'll never keep you waiting
I'll never betray home
I'll never be ungiving
I'm never to far (Gone, gone, gone) I never want to quit, I never want to fold
I want to be the man that you see me I never want to be that ear that you can't run to
I want you to trust and confide in me
Come, baby (Come now girl let's go) Come now girl let's go
(Lady take my hand) Lady take my hand I'll lead you
(Let me take you to) Let me take you to where you'll never want for love
(Never never land) You'll never have to worry about that (Come now girl let's go) Starting right now
(Lady take my hand) Lady take my hand yea
(Let me take you to) Let me take you too happy
(Never never land) Come on let's go baby (Let me take you to) Never never land
(Never never, never never land) You'll never be uninvested
'Cause you and I girl we are rich with love I never felt like we can't make it
'Cause there's no obstacles we can't rise above I rather have a hundred reasons to stay than one to leave
I never want to give you food for thought not to believe 'Cause you're my princess we go together
Like Prince Charming and Cinderella
When I'm with you girl I
See your name on valentine (Come now girl let's go) Come girl let's go
(Lady take my hand) Lady take my hand I'll lead you
(Let me take you to) Let me take you to let me take you to happy happy happy
(Never never land) See never never never never land you ain't got to worry 'bout girl (Come now girl let's go)
Come come come come come come come
(Lady take my hand) Let me take your hand baby
(Let me take you to) To ooh ooh
(Never never land) Never, never land (Let me take you to) Let me take you to
(Never) Never, never never never land Never
Never
Never
Never
Never
Never
Never
Never
Oh oh oh oh oh Come now, come now Come now girl let's go (come now girl let's go)
(Lady take my hand) Step on the room, do me a favor and take my hand lady
(Let me take you to) Let me take you ooh ooh
(Never never land) You'll never have to want for love I'm a want you here for life (Come now girl let's go)

Come now let's go baby)
(Lady take my hand) Lady take my hand)
(Let me take you to) Let me take you to
(Never never land) Your hand(Come now girl let's go) Let's go (I'll take you baby)
