

Disease

Adore Me Not

I am the disease
That you cannot cure
I am the relieve
That just always hurts I don't only love
There is something more
If you we're the girl
I would still adore This is the revenge
That you never had
Sooner or later everything turns into bad It has always been like this
It has always been like this
I'm covered in your bliss
Where's the boy I used to miss I don't only love
There is something more
If you we're a girl
I would still adore I am the disease
That you cannot cure
I am the relieve
That just always hurts
And it hurts you bad Back and forth
We'll never arrive
There's all-night illusion before you drown
Healing disease
I'm begging, please
There is no more cure in between (I won't be adored - let go, let go
give up the fight - let sweet salvation blow your mind) I will not be adored
So long
I'm about to loose my mind
Let go, give up the fight
Let sweet salvation win
It's not time for you and I It's not our time, yeah yeah It has always been like this
I'm covered in your bliss
Where's the boy I used to miss Where's the boy I used to miss
Where's the boy I used to miss
Where's the boy I used to miss
Where's the boy, where's the boy
Where's the boy I used to...
