

She's So Fly (feat. T.I.)

Nelly

[** feat. T.I.:]

[Chorus:]

Me and you go hand to hand*

And I don't give a damn

I'll always be your man

It's something about you smilin'

That lights my life

I need you by my side

I need you in my life

As long as me and you keep doing

What we're doin'

'Cause I know it's right

'Cause I know what we ask won't take us to our lives

Are we meeting again?

When that young man was kid and a wimp

We'll I'm just... you the beat until it ends

'Cause I'm so damn hot

Like the heat when I win

I'm speaking to him like I'm speaking to him

So little wimp no fucking beat for your swim

Yes, I'm keeping all the little shuck up

I'm just like the algebra course that you took up

I'm smooth like a...

I floss like a new truck

So you all gonna get chewed up

So what the fuck is left to say?

I'm speaking so hard

Like a gun when is sprayed

If you're caught in my way

You will talk like your gay

And start walking away

Like you're stoppin' in a way

[Chorus:]

Me and you go hand to hand

And I don't give a damn

I'll always be your man

It's something about you smilin'

That lights my life

I need you by my side

I need you in my life As long as me and you keep doing
What we're doin'
'Cause I know it's right
'Cause I know what we ask won't take us to our lives I've just cruised around my CD
Tell you the truth
Hell needs to fuck with me, 'cause really
Just look at me
Everything about me looks silly
If I pissed... scalp me up in Philly
While he's shouting up like P Diddy
I'm around to my...
Get punches like...
Like I'm blacking out the city
Need a... amount to kill me
'Cause I'm standing out to heal me
And I let loose the can
Like I'm staying out in Philly
Pussy ha ha ha
Your miss tape was over rated
I'll take any of your tracks
Up in the lab and... degrade it
So listen! I'm the greatest one
I... ain't go pay this... [Chorus:]
Me and you go hand to hand
And I don't give a damn
I'll always be your man
It's something about you smilin'
That lights my life
I need you by my side
I need you in my life
As long as me and you keep doing
What we're doin'
'Cause I know it's right
'Cause I know what we ask won't take us to our lives
