

# Dreamville

## Tom Petty & The Heartbreakers

Goin' down to Lillian's music store  
To buy a black diamond string  
Gonna wind it up on my guitar  
Gonna make that silver sing Like it was Dreamville  
A long time ago, a million miles away  
All the trees were green in Dreamville I keep wakin' up all by myself  
With a blue jay in my brain  
Flappin' his wings, makin' me sing  
It was just about to rain Like it was Dreamville  
Where I was born, light years from here  
And the air smelled good in Dreamville Like it was Dreamville  
A long time ago, light years from here  
And the trees were green in Dreamville Ridin' with my mama to Glen Springs Pool  
The water was cold my lips were blue  
There was rock and roll across the dial  
When I think of her it makes me smile Like it was Dreamville  
A long time ago, a million miles away  
All the trees were green in Dreamville, in Dreamville Yeah it was Dreamville  
A long time ago, light years from here  
And the air smelled good in Dreamville, in Dreamville
