I Want The World

Embrace

Maybe I talk like the man
Who hangs on the lowest rung
And I don't wanna be like that man
Who begs on the lowest gold
And when you run out of time
I fly high above your stones
Another walk down memory lane
Won't hide all the luck you've stole
Yeah, while you doubt me
You're so wise, you spread the word
If you're alive then why aren't you living?
And I want the world, and I want the world
Maybe I talk like the man
Who hangs from the lowest rung
And I don't wanna be like that man
Who begs on the lowest gold
Yeah, don't you doubt me
If you're wise then spread the word
If you're alive then why aren't you living?
And I want the world, and I want the world
And all the life I've had, I've spent
Looking out for someone who knows
We won't come down, 'cos I'm a million strong
And so is the light I've found
And all the life I've had, I've spent
Looking out for someone who knows
We won't come down, 'cos I'm a million strong
And so is the light I've found, yeah
