

Return the Gift

Gang of Four

Head away from the years, you're on the price list
Head away from the years, you're on the price list
Head away from the years, you're on the price list Everything will stop your new changing
The grid will be filled
Go to Scotland no obligation
We'll send you an invitation
We'll send you an inside shower
We'll send you an inside shower It's on the market, you're on the price list
It's on the market, you're on the price list
It's on the market, you're on the price list In the spring who can say?
Please send me evenings and weekends
Shared by with the weeks
Please send me evenings and weekends
Please send me evenings and weekends
