Parhelia

Heaven Ablaze

It's like the time I punched you in the face and left you all covered
In blood
Weak kneed and forced to spew forth all of the lies that come from
Your mouth

(Chorus)
Life
Catches up with you and drags you down
War
Puts the noose around your neck and it's tight

Black twisted forked tongue this liar I've caught in my web
And drained
All of its life and its self worth it tried to take
From me

(Chorus)

Parhelia
I will kill you

Now face to face with yourself and the seed of doubt
It's deep
Ripped apart in two one half will the other won't

(Chorus)

Parhelia

Dig this hole it's deep and covered in lime
You feel the steel it touches your skull
Your eyes are wide from the flash of your life
