

# Standing in the Darkness

**Johnny Van Zant**

The man in the dark is who I seek  
Waiting for the light I fear I am too weak  
Who is he and why was he here?  
I guess I'll never know until my time is near I'm standing in the darkness all alone  
I'm standing in the darkness  
Death has come too soon I stand for the jury now  
Waiting for the golden gates to appear  
The light is shining now  
And you never felt so near I'm standing in the darkness all alone, oh  
I'm standing in the darkness  
Death has come too soon, oh
