

Gratitude (feat. Loyiso)

Sculptured Music

Go has not promised you sunshine
You have to get a little rain
Mixed with God's sunshine
Ohh ohh ohh
A little pain!
It makes you appreciate all the good times so be grateful!
(So you better be grateful

Gratitude
Gratitude
You're answer to all my prayers
So I'm grateful, I'm grateful
For the air I breathe and love I feel

Wake up everyday and count your blessings!
It's the only wise thing to do if you want more
Being grateful opens up your doors and brightens up your path
So let the heavens shower you by being grateful!

Gratitude
Gratitude
You're answer to all my prayers
So I'm grateful, I'm grateful
For the air I breathe and love I feel

Two simple words that can change your life
Use them everyday, this could change your life
What you're grateful for shows up in your life
It might be simple words, a simple "Thank you"
For what He's done for me I say thank you
For all He's still to do, I'm more grateful
So you better be grateful

Gratitude
Gratitude
You're answer to all my prayers
So I'm grateful, I'm grateful
For the air I breathe and love I feel
