

# These People

[Richard Ashcroft](#)

Imagine your life without a melody  
This sweet love song for you for me to sing  
Imagine my life without your morning smile  
Your look of love that says, 'stay awhile' These people, sent to test us  
Sent to play with our minds  
Come on baby  
We're a little stronger  
I know we can survive Oh yeah  
Moving through a different part of our lives  
On a raging sea they say that man survived  
We move them to a different part of our heart  
Come on baby now  
Let us start  
These people, sent to test us  
Sent to play with our minds  
Come on baby  
We're a little stronger  
I know we can survive I, I know we can survive  
Oh Oh Oh Could there be life without a melody?  
A soixante-neuf without the erotique?  
Imagine my life without your morning smile  
That look of love that says, 'stay awhile' These people, sent to test us  
Sent to play with our minds  
Come on baby  
We're a little stronger  
I know we can survive  
(I know we can survive)  
These people, sent to test us  
Sent to play with our minds  
Come on baby  
We're a little stronger  
I know we can survive  
(I know we can survive)  
I know we can survive  
(I know we can survive)  
(I know we can survive) I feel like a number one again  
I'm like I'm born again  
Hand in hand in the sun  
Hand in hand in the sun

Hand in hand in the sun

Ooh yeah
