

# Love Comes From the Inside

[Laura Pausini](#)

Looking for my self control  
In the world that got no soul  
When will I come home?  
Some say I'm a rolling stone  
wearing someone else's clothes  
When will I go home Cloudy and murky is my vision  
Want you help to turn the corner  
'Cause I'm in the lost and found  
Stand up and show me you'll deliver  
Would you help clear my conscience  
'Cause I want to taste the wine Do you believe that love comes from the inside?  
Got to believe this time that love comes from the inside Looking for a friend of mine  
Trying to find some piece of mind  
Happiness is hard to find  
As I've been looking for love  
You know the wrong faces  
Hanging around in too many places  
When will I come home? Cloudy and murky is my vision  
When I am looking for the answer  
I am running out of time Stand up and show me you'll deliver  
Would you help clear my conscience  
Coz I want to taste the wine Do you believe that love comes from the inside?  
Got to believe this time that love comes from the inside Cloudy and murky is my vision  
When I am looking for the answer  
I am running out of time Stand up and show me you'll deliver  
Won't you help clear my conscience  
'Cause I want to taste the wine Do you believe that love  
Got to believe that love And got to believe this time that love comes from the inside  
Got to believe that love comes from the inside Do you believe that love?  
Got to believe that love come from the inside
