

To Die For

The Bohicas

Perhaps she can't tell
Yes I'm doing well
Lets just saying I aint feeling myself anymore
We'll stay in touchResistance is around the corner
I get high
I get low
I get high
I get low
You've heard it all before
But baby we're just to die for
We're just to die for
We're just to die for
We're just to die for
Woke up in A&E with an IOU
As I reverse the realms of my mind
Worst thing I remember on the 31st of December
23rd, 53 and 29
I get high
I get low
I get high
I get low
You've heard it all before
But baby we're just to die for
We're just to die for
We're just to die for
We're just to die for
We're just to die for
If I could eat my words
I would lick my pain
I guess what's done is done
In an act of fertamality
Ribbon through the fabric of reality
Fool me like a bank robber with a fake gun, fake gun
I get high
I get low
I get high
I get low
You've heard it all before
But baby we're just to die for

We're just to die for
We're just to die for
We're just to die for
You've heard it all before
But baby we're just to die for
We're just to die for
