(Just A) Patsy

Sick of It All

Put defenses to rest
when justice becomes moot
defy - let others follow suit
to start the uprise is to start the war
paranoid conspiracies galoreWhat's the point to maintain your innocence
what's the point to play into their game
what's the use to even try and sway
pigs that are out to put you awayJust a patsy played for a fool
crooked games are what they're playing
lying, cheating, self defeating
crooked games are what they're playing
accusations so demeaning, played for a fool
crooked games are what they're playing
lying, cheating, self defeating
crooked games are what they're playing
accusations forcing you to put defenses to rest
