

# Something In the Water (Does Not Compute)

## Prince

Some people tell me I got great legs  
Cant figure out why you make me beg  
Does not compute, dont not compute You think youre special, well so do I  
Why do special women make me cry?  
Does not compute, it dont not compute Must be something in the water they drink  
Its been the same with every girl I've had  
Must be something in the water they drink  
Cuz why else would a woman wanna treat a man so bad? Some people think Im kinda cute  
But that dont compute when it comes to you  
It dont compute, somethin, mama, dont compute Whats the hangup? Whats the scam?  
Guess you think Im just another one, one of your fans  
It dont compute, somethin, honey, dont compute Must be something in the water they drink  
Its been the same with every girl I've had  
Must be something in the water you drink  
Cuz why else would a woman wanna treat a man so bad? I've got to get to you, baby Some people think Im kinda  
smart  
Why must a fella stop with you before he starts?  
It dont compute, mama, somethin dont compute Id buy you clothing, buy you fancy cars  
But you gotta talk to me, baby, tell me who you really are Must be something in the water they drink  
Its been the same with every girl I've had  
Must be something in the water you drink  
Why else would a woman wanna treat a man so bad? Must be something in the water they drink  
Must be something in the water they drink  
Must be something in the water they drink  
Must be something in the water they drink  
Must be something in the water they drink Must be something in the water they drink  
Must be something in the water they drink  
Must be something in the water they drink  
Must be something in the water they drink  
Must be something in the water they drink Why? Why?  
I do love you, I do  
Or else I wouldn't go through all the things I do
