

Beautiful Dream

Fever Fever

Nothings ever felt this right
Crossing the Earth by your side
No nothings ever felt this way before
And nothings ever felt this real
For something I dont always feel
No nothings ever felt this way beforeIs this real
Is this happening or a beautiful dream I havent woken up from
Nothings ever felt this right
Crossing the Earth by your side
No nothings ever felt this way before
And nothings ever felt this real
For something I dont always feel
No nothings ever felt this way beforeIs this real
Is this happening or a beautiful dream I havent woken up fromIs this real
Is this happening or a beautiful dream I havent woken up from
