

# American Trash (Newsfeed Mix)

## Innerpartysystem

I've got this planet in my hands  
You know I'll waste it if I can  
Come on let's give it a twist  
And if it all turns to shit  
Oh wait, let's try that again. My life's too short to have a plan  
Here, let me help you understand  
First take this drink and this pill  
Relax your mind and be still  
Let's find out who I am 'Cause I'm just American trash  
Stupid American trash  
I'm just American-  
Stupid American trash I've got this planet in my hands  
Yeah, I'll try to save it if I can  
I'm satisfied with myself  
Don't care for anyone else  
I'm so united when I stand. I get my facts from the TV  
Believe in everything I read  
It's such an ignorant bliss  
When the whole fucking world wants to be like me. 'Cause I'm just American  
Stupid American trash  
I'm just American  
Stupid American trash  
I'm just American And everyone's shutting down  
The people are so worn out  
Wake up, the dream is over  
Everyone's shutting down  
The people are so worn out  
Wake up, the dream is over  
Wake up, the dream is over  
( 'Cause I )  
Wake up I'm just American-  
Stupid American trash  
I'm just American trash  
Stupid American trash  
I'm just American  
Trash.
