# Emily Kane

## Art Brut

I was your boyfriend when we were 15
It's the happiest that I've ever been
Even though we didn't understand
How to do much more than just hold handsThere's so much about you I miss
The clumsy way we used to kiss
I wish I convinced you, you've made a mistake
If memory serves, we're still on a breakOther girls went and other girls came
I can't get over my old flame
I'm still in love with Emily KaneEvery girl that I've seen since
Looks just like you when I squint
I know you said it's for the best
I still don't understand why you leftSo much about you I miss
Every time I see a couple kiss
I hope this song finds you fame
I want school kids on buses singing your nameOther girls went and other girls came
I can't get over my old flame
I'm still in love with Emily KaneI don't even know where she lives
I've not seen her in 10 years
9 months, 3 weeks, 4 days
6 hours, 13 minutes, 5 secondsOther girls went and other girls came
I can't get over my old flame
All my friends think I'm insane
I'm still in love with Emily KaneThere's a beast in my soul that can't be tamed
I'm still in love with Emily Kane
I thought I'd never love again
I'm still in love with Emily KaneThe torch that I hold is always a-flame
I'm still in love with Emily Kane
I hope this song finds you fame
I want school kids on buses singing your nameAll my friends think I'm insane
I'm still in love with Emily Kane
Emily Kane, Emily Kane, Emily Kane
