Freak

Blake Lewis

The world stops as you walk in,
Every head turns to you dreading everything God gave you
The strobe lights bounce off the walls
Pulls you in, as they spin revolving all around you
You can't stand still, you can't handle
Your primal instinct is to move and I need to know, girl
The beat is so strong inside your ear drum
When you and I lock eye to eye then its all over
It's in the way that you move, you move your body so smooth
Music consuming every inch to make you do what you do
Heartbeat pumping so fast, your VP, am I your match
Crossed a connection, hey DJ play our selection
Move
Your body like a freak
Move
Your body like a freak
(Your body like a freak, freak)
Step back and touch yourself
From your lips to your hips, you know that I like watching
I might hold back for a while while you sweat and you get
The fix that you are wanting
You can't stand still, you can't handle
Your primal instinct is to move and I need to know, girl
The beat is so strong inside your ear drum
When you and I lock eye to eye then its all over
It's in the way that you move, you move your body so smooth
Music consuming every inch to make you do what you do
Heartbeat pumping so fast, your VP, am I your match

Crossed a connection, hey DJ play our selection
Move
Your body like a freak
(Your body like a freak)
Move
Your body like a freak
(Your body like a freak)
Move
Your body like a freak
(Your body like a freak)

Move
Your body like a freak, freak
(Freak)
It's in the way that you move, you move your body so smooth
Music consuming every inch to make you do what you do
Heartbeat pumping so fast, your VP, am I your match
Crossed a connection, hey DJ play our selection
Move
Your body like a freak
(Your body like a freak)
Move
Your body like a freak
(Your body like a freak)
Move
Your body like a freak
(Your body like a freak)
Move
Your body like a freak, freak
(Like a freak)
Freak, yeah
