This Is The Time

Michael Bolton

As the years say goodbye
One by one on silent wings they fly
What will last, what is true
That's a lesson I learned lovin' you
This world will find it's way somehow
I've got all that I need, right here, right now
And this is the time when the cold winds blow
When the snow falls from Heaven on the dreamers below
Yeah this is the time when I need to know
That your love will always be mine
Baby this is the time, baby this is the time, yeah
Sometimes life leads you blind
To the one that of you've been waiting to find
Well sometimes life lets you see
Just how great the gift of love can be
Now the light that fires the brightest stars
Is waiting to shine on this moment of ours
And this is the time when the cold winds blow
When the snow falls from Heaven on the dreamers below
This is the time when I need to know
That your love will always be mine
Baby this is the time, this is the time
If life is just a dream, I know within my heart
Just getting closer to you is by far the sweetest part
So tell me one thing baby, the one thing I need to know
Baby this is the time when the cold winds blow
When the snow falls from Heaven on the dreamers below
Yeah this is the time when I need to know
That your love will always be mine
Baby this is the time, baby this is the time
