

Black Water

Tinashe

Black water, looking glass
No windows, still at last
Low whisper in the air
Storms coming, please beware!
Storms coming blowing me,
Sand bags and batteries. Old pictures led us to
Frozen moment, vivid trues
Wine bottles, diamond rings
No value in expensive things
Do you imagine my surprise
What is precious to my life Hook:
Cause I
I'm in love with this music!
Cause I
I'm in love with this music
(All I need!) Black water deep as night
Too quiet, no moonlight
Take caution, don't be fooled
Storms coming, coming soon
Storms coming, so prepare
This' unaware Ohhhh
And all the sign that are saying that you will be in love
Then everything inside me screams I m not giving up
No, I'll stay afloat or I'll drown in it
Black water
Black water
Black water
Black water Hook:
Oh, I'm in love with this music!
(I'm in love, in love!)
Cause I
I'm in love with this music
(All I need!)
Black water
Black water
Black water
Black water
