

Goodnight

Dry Kill Logic

Now that I face the world with pain inside
Strange but I can't understand the reasons why
Forever is a word that I cannot describe
That died the time we said, goodnight
It makes no difference, wrong or right
The time has come to say, goodnight
And how could I be so sure but be so wrong?
And how could I? Have a will so weak with a mind so strong?
And only I can tell the difference right or wrong
It makes no difference, wrong or right
The time has come to say, goodnight
It makes no difference, wrong or right
I guess it's best we say, goodnight
