Goodnight

Dry Kill Logic

Now that I face the world with pain inside

Strange but I can't understand the reasons whyForever is a word that I cannot describe

That died the time we said, goodnight

It makes no difference, wrong or right

The time has come to say, goodnightAnd how could I be so sure but be so wrong?

And how could I? Have a will so weak with a mind so strong?

And only I can tell the difference right or wrongIt makes no difference, wrong or right

The time has come to say, goodnight

It makes no difference, wrong or right

I guess it's best we say, goodnight
