

Terrified (Acoustic Version) [Bonus Track]

[Anna Ternheim](#)

No one I'll rather be with than you
Never say the word but our eyes always do
My head explodes and my mind's a mess
And I'm dying to move like young boys do
No one I'll rather be with than you
Away with the bothers and the saddest of news
Sober or not, high and down below
Days you know but nothing flows
You see me like no one saw me before
You see me like no one saw me before
And this part terrifies me so
No one makes me free like you make me
I speak my mind, I'm honest and I'm cruel
I lay out my cards, I'm a joke, I'm a fool
But the beast in me sleeps oh so peacefully, oh so peacefully
