

Oasis

Adara

When the bridges I've built have all burned down
When the rivers run dry and I'm out of luck
When I give what I have but it's not enough
And I reach for the map but it turns to dust

Can I run to you, when I come undone

When I'm stuck in the desert, praying for better
Wandering lost for a thousand years
Dreaming of treasure, try'na remember
Just how it felt when I had you here

You can be my oasis
My hallucination
Sweet intoxication
When I need some saving

~Saving, yeah

You can be my oasis
My hallucination
Sweet intoxication
When I need some saving

~Saving, yeah

When I fall to my knees and I'm giving up
When I'd do anything just to feel your love

When I give what I have but it's not enough
And I reach for the map but it turns to dust
Can I run to you when I come undone

When I'm stuck in the desert, praying for better
Wandering lost for a thousand years
Dreaming of treasure, try'na remember
Just how it felt when I had you here

You can be my oasis
My hallucination

Sweet intoxication
When I need some saving

~Save me, yeah

You can be my oasis
My hallucination
Sweet intoxication
When I need some saving

Save me, yeah
Save me, yeah
