

Girls

N-dubz

Girls, I fuck with them
I don't usually fall in love with them
But you should be prescribed to me, yeah
Some chicks are drugs to men
A lot deserve the finer things in life
And I think you're one of them, eh
Money ain't shit, got loads to blow, eh
Show me a signal, let me know, eh
If you wanna have a better life
Then baby, you know where to go
It's coming in quick
Ain't flowing in slow, oh
Like I said, let me know
If Weezy made it rain, I can make it snow, eh
Girls, I'm loving them, yeah
But I won't let them get the best of me
Girls, I'm loving them, yeah
I get them all around the world
What would I do without you? What would you do without me?
Don't need to tell ya, baby
'Cause it's plain for us to see, tonight
Girls, I'm loving them, girls, girls, girls
Guys, I fuck with them
They be pinging off my phone, telling me they all alone
And they sitting at home while I'm out tryna get that dough
And that's why they call me the baddest bitch
'Cause I switch all the roles
I'm the one that drives 'em crazy
They all wish I was their lady
But I'm earning more than them
And they saying their bitch is lazy
I am the biggest female boss that ever lived
And everything that you done I been and did, oh
Girls, I'm loving them, yeah
But I won't let them get the best of me
Girls, I'm loving them, yeah
I get them all around the world
What would I do without you? What would you do without me?
Don't need to tell ya, baby

'Cause it's plain for us to see, tonight
Girls, I'm loving them, girls, girls, girls
When ya girlfriend says she's on her way
And ya staring at the clock in frustration
Thinking why is she so late?
I just can't live without them
They'll break your heart
Don't doubt them
I'm the reason why she's never coming back
Simply can't leave me around them
Girls, I fuck with them
I tell them anything they wanna hear
So by the end of the night
I'm fucking them
Guys, I fuck with them, yeah
And I know they all guest like Mariah
Do you know what?
I'm in love with them
Girls, I'm loving them, yeah, whoa
But I won't let them get the best of me
Girls, I'm loving them, yeah
I get them all around the world
What would I do without you? What would you do without me?
Don't need to tell ya, baby
'Cause it's plain for us to see, tonight
Girls, I'm loving them, girls, girls, girls
