Give Wings To My Triumph

[Hatebreed](#)

Here I am
Exposed in my brokenness
For the world to see
Here I am
Screaming these words
It's all I've ever known of serenity
Here I am
Telling my pain, bearing my soul to the world
Here I am
Venting on this page, flawed and insecure no more
Here I am
Coming clean with myself, knowing that this time would come
Here I am
Like a thousand voices, I know I'm not the only one
Now my fists must never become unclenched
Eternally prevailing against
I must endure the misfortune and bring starvation for those who hunger for my defeatGive Wings To My Triumph
Let this life ascend
Give Wings To My Triumph
Give rebirth for every deathHere I am
Exposed in my brokenness
For the world to see
Here I am
Screaming these words
It's all I've ever known of serenitySee my will before you know
Life ascends in every death
A rise for every fall
A life for every breathGive me wings
So I ascend
Let me soar, take me farther than ever beforeGive Wings To My Triumph
Life ascends in every breath
Give Wings To My Triumph
Rebirth for every death
Give Wings To My Triumph
and let me soar
Give Wings To My Triumph
take me farther than before
