Freedom

Blood Stain Child

Mind that longs for peace
Endless war it's our mind
What is peace? Sorrow...Pain...Anger..
The world where those all do not live..Peace doesn't exist if there is no dark
Everyone understand
How should we advance?People live android like on here
Why can you feel happiness?
Why can you laugh and try?
This world is made in light and darkAngry. Feels sorry and painful
Still, the world that can be laugh
It is tomorrow for which we hopeWe can stay this stardust endless space...
It is our universe
We can feel stardust endless space..
Sightless where is a peace?
Endless, what is a peace?We can stay this stardust endless space...
Dive into the FREEDOM
we can feel stardust endless space..
Lasting, where is our space?
Trusting, what is our space?Wave
Why do you live in this world?
What do you live in this world?
Where do you live in this world?
Say, Feel, Lights out
How do you live in this world?
Wave...Life, Peace, Space, Live
and Universe, Feel, Fly
No we can stay hereWe can stay this stardust endless space...
It is our universe
We can feel stardust endless space..
Sightless where is a peace?
Endless, what is a peace?We can stay this stardust endless space...
Dive into the FREEDOM
we can feel stardust endless space..
Lasting, where is our space?
Trusting, what is our space?
