

Side On

Last Perfect Thing

Side on, this side
It's the game you're willing to play You want what can't be won
You hold what can't be sold
And it gets you
It gets you
It gets you You like to hold a gun
You like to play with love
And it gets you
It gets you
It gets you Cynicism and criticism
Ain't nothin' mad about
The medicine in the system
It's all gonna end soon
Why not start with you?
Why not start with you?
Losing the feeling of
Feeling alone
Alone
You want another piece of me?
Infinitely
Infinitely
Infinitely Side on, this side
It's the game you're willing to play
Don't let me drown
In the wake
Face first, away from disaster You said it's all been done
But you like to play with love
And it gets you
It gets you
It gets you You want what can't be won
You like to hold the gun
And it gets you
It gets you
It gets you Cynicism and criticism
Ain't nothin' mad about
The medicine in the system
It's all gonna end soon
Why not start with you?
Why not start with you?

Feeling alone
Alone
You want another piece of me?
