Until I Found You

Aaron Hall

I was nothing
Until I found your love
Till I found your love
Until I found your loveLately you've been on my mind
I didn't know that I would ever see you again
Baby don't leave me alone
You know that I need you so desperately
Love love you and me
Is all of all that I need
So don't don't think I don't care
Oh baby my life was nothing till I found youI was nothing
(Until I found you)
(Until I found you)
My life's never been the sameCan I talk to you baby?I'm so happy you didn't leave me
I don't know what to do
And by the way oh baby girl
You are my world
And nothing can come between us
You you turn me on
It feels like nothing can go wrong
So don't don't be confused
My life was nothing till I found youUntil I found you
Until I found you
My life's never been the sameI was nothing
Until I found you
Until I found you
My life's never been the sameOh every time I see you
I stop and thank God for your love
Please girl don't ever leave me
I don't know what I'll do without youI was nothing
Until I found you
Until I found you
My life's never been the same
(2x)Can I tell you what you did for me?
You took a frown and made me happy
You took the tears and dried them away
My life, my life's never been the same
Until I found your love(Chorus)
