

# Better

## Alissa Moreno

### Pride

Why'd you have to go and speak for me again?  
Why'd you tell him that I never needed him?  
When I know better

### Shame

Why'd you try to make me feel like everything  
Is all my fault I don't amount to anything  
When I know better

### Do I fight?

Should I try?  
Is it fate, in my way?  
I'm already this far  
And I couldn't have done better

### Pain

Can you tell me why it is I'm so afraid of you?  
I've suffered you before and always gotten through  
Heartache

What is it that always makes you fond of me?  
Seems like you should be my greatest enemy  
But I know better

### Do I fight?

Should I try?  
Is it fate, in my way?  
Do I laugh?  
Should I cry?  
Or for now am I okay?  
I'm already this far  
And I couldn't have done better

### Over and over

Try it again  
A path to take leaves no mistake  
In the end

### Love

Why is it I feel you're always missing me?

When you come around to do it quietly

Do I fight?  
Should I try?  
Is it fate, in my way?  
Do I laugh?  
Should I cry?  
Or for now am I okay?

Do I fight?  
Should I try?  
Is it fate, in my way?  
Do I laugh?  
Should I cry?  
Or for now am I just getting by?  
I am already this far  
And I couldn't have done better
