

# International Mystery Man

## The Lads

Stranger things they have not been seen  
Than what I will relate  
I was saved like it was a dream  
By someone else, outside the usual state  
He's supernatural and unpredictable  
But it's a certainty  
You don't have to believe, but he rescued me  
(Yeah) And he's come to save us  
International Mystery Man  
From outer space invade us  
With his superhuman plan  
I've heard the news on the radio  
Of sightings all around  
People rescued from their foes  
When he appeared, the IMM touched down
