

# Undead

## Pyogenesis

(music: Flo Schwarz lyrics: Tim Eiermann)

It's cold here, show me the sky you see  
I don't have wings to fly but I have a will  
this way - I feel  
a lie - is real  
screaming for heaven, resting souls rebirth  
cause we are undead fading away  
no will to live, the pain, we can't stay  
we are undead fading away  
there's no return only dismay  
I've tasted life, worlds air I breathe  
but my lungs are dry not able to work  
the way - I feel  
a lie - is real  
screaming for heaven, resting souls rebirth  
cause we are undead fading away  
no will to live, the pain, we can't stay  
we are undead fading away  
there's no return only dismay  
all ends here - nothing's like it was before  
lost my will to live and lost all I adore  
I've lost it all  
cause we are undead fading away  
no will to live, the pain, we can't stay  
we are undead fading away  
there's no return only dismay
