Steel Meets Steel

HammerFall

Back in thousand ninety-five, when the call to arms came
We had the red cross sown onSent to save the holy land and crush the infidels
With strength form above(Steel meets steel)
Steel meets steel
Steel meets steel, steel meets steelOn towards victory we march, the guiding star
Leads to the battlefieldThere, the heathens were subdued, and in the end
We forced them all to yield or die(Steel meets steel)
Steel meets steel
Steel meets steel, steel meets steelIn July 99, the holy city was stormed and won
Jerusalem was freed, we thank the Lord for our glory
Our gloryWe, the tampers have survived by honor and pride
And the blessing of the swordThe quest of the war, forever sung
To the sound of steel meets steel(Steel meets steel)
Steel meets steel, steel meets steel
Steel meets steel, steel meets steel
Steel meets steel, steel meets steel
Meets steel meets steel meets steel, yeaSteel meets steel, meets steel
Meets steel, meets steel, meets steel, yea
Steel meets steel ha
