Twist

Oh Land

Set me free from the prison of the past
Don’t trap in your story
You will fall from the shaggy you stand
On guard and protect your dynasty
To fend the fall intruders
It’s the sign of the fear that you bring
You twist dismiss my memory
Now let’s twist things into a harmony
You twist dismiss my memory
So let’s twist things into a harmony
Assembly line is diversity of threat
Breaking all the borders
I don’t think this is as far as we can get
Control a chance to prove your power
Hope seems so distant
When you think we’re all cowards

You twist dismiss my memory
Now let’s twist things into a harmony
You twist dismiss my memory
So let’s twist things into a harmony
You twist dismiss my memory
Now let’s twist things into a harmony
You twist dismiss my memory
So let’s twist things into a harmony
Get me in assembly line, control, control
Listen the listen me in power, tick, tick
Breaking we’re all, breaking we’re all
Get, get, control
You twist dismiss my memory
Now let’s twist things into a harmony
You twist dismiss my memory
So let’s twist things into a harmony.
