

# Follow The Light

Gina G.

I will be there for you, baby  
For you baby, oh, oh, oh  
I will be there for you, baby  
For you baby, oh, oh, oh Turn around and let me read the secrets in your eyes  
Face me now and tell me theres no secret you can hide  
Close your eyes and trust your heart to show you what to do  
Im telling you something I believe in you If it takes a thousand days  
Just follow the light back home  
You can find your way  
If you follow the light back home  
Ill be here for you Take your time the world that you should need or try to be  
Never doubt the love without a question, thats the key  
Open up your heart and fire the flame to keep you warm  
And love together, a shelter from the storm If it takes a thousand days  
Just follow the light back home  
You can find your way  
If you follow the light back home  
Ill be here for you Gonna be there for you, baby  
Gonna be there for you, baby  
Gonna be there for you, baby  
I believe in you Gonna be there for you, baby  
Gonna be there for you, baby  
Gonna be there for you baby  
I believe in you (Gonna be there for you, baby)  
If it takes a thousand days  
Just follow the light back home  
(Gonna be there for you, baby)  
You can find your way  
If you follow the light back home  
(Gonna be there for you, baby) If it takes a thousand days  
(Gonna be there for you, baby)  
Just follow the light back home  
(Gonna be there for you, baby) You can find your way  
(Gonna be there for you, baby)  
If you follow the light back home  
(Gonna be there for you, baby) Ill be here for you  
If you follow the light back home  
Ill be here for you  
If you follow the light back home I will be there for you, baby

For you baby, oh, oh, oh  
I will be there for you, baby  
For you baby, oh, oh, oh I will be there for you, baby  
For you baby, oh, oh, oh  
I will be there for you, baby  
For you baby, oh, oh, oh
