Other Woman

[Paloma Faith](#)

Please ignore the sadness in my eyes
Don't ask me if I'm alright
If you do, my tears will overflow
Emotions I cannot controlLet it go
'Fore I change my mind
Is it over?
Let it go
Do I have to be cool just for you to be kind?Will you wave goodbye to that other woman?
Say goodbye to that other woman?
Nothing's changed, I can breathe, oh, baby
Hurts deep in my heart, you cut deep in my heartThought you were through with that other woman
What's it got to do with that other woman?
Hold a peak from me, beat up, baby
Hurts deep in my heart, you cut deep in my heartBoy, you keep saying that your mind (that your mind)
But she keep crossing the line (xxx)
I know she knows just what she do (what she do)
Tryna take me for a fool (xxxx)Let it go
'Fore I change my mind (change my mind)
Is it over?
Let it go
Do I have to be cool just for you to be kind?Will you really really really wave goodbye to that other woman?
Say goodbye to that other woman?
Nothing's changed, I can wait, oh, baby
Hurts deep in my heart, you cut deep in my heartThought you were through with that other woman
What's it got to do with that other woman?
Hold a peak from me, beat up, baby
Hurts deep in my heart, you cut deep in my heartAll the talk, all trip, I have just turned a leaf
You make my soul bleed
When will she just back off?
Will this girl ever stop?
'Cause it's got way too much, much for meAll the talk, all trip, I have just turned a leaf
You make my soul bleed (hey hey)
When will she just back off?
Will this girl ever stop?
'Cause it's got too much for meWill you wave goodbye to that other woman?
Say goodbye to that other woman?
Nothing's changed, I can breathe, oh, baby
Hurts deep in my heart, you cut deep in my heartThought you were through with that other woman
What's it got to do with that other woman?

Hold a peak from me, beat up, baby
Hurts deep in my heart, you cut deep in my heart
