

Carnival

Our Lady Peace

You know, you're not a strong man
And you're just about to cry
Hang on, hang on
It's all right, it's all right You worry about the future
Sign said 'Yoga class for cats'
It's okay, it's okay, it's no fun You're frustrated by the cracks
In the pavement and every mother's back
Once again, the carnival closed down
But if this world would ever turn around And the dynamite is waiting
'Cause they bankrupted the sky
It's okay, it's okay, it's no fun You're frustrated by the cracks
In the pavement and every mother's back
Once again, the carnival closed down
But if this world would ever turn around Break your mother's back
If you step on the cracks
Everybody does You're frustrated by the cracks
In the pavement and every mother's back
Once again, the carnival closed down
But if this world would ever turn around You'll be there
When everyone is sane, oh, you'll be there
When everyone is sane, oh, you'll be there
When everyone is sane, you'll be there
When everyone is sane, oh, you'll be there The carnival closed down, closed down
The carnival closed down
